

If anything, the no-call comment should be made much, much stronger! It should easily include e-mail as well as phone and fax. It should last forever, or until the individual cancels it.

We should not have to re-register every few years.

It should also include political parties. This last presidential election cycle was terrible. I vote; I resent reminders from anyone, include the candidates I will be voting for.

Remember - my phone is mine; I pay for it. I pay a monthly fee for this service. It is NOT a public communication device. No one, except me and my family, has a "right" to call me on the phone I'm paying for, over the lines I'm paying for.

Thank you.

Please do not weaken or eliminate the no-call list.
